WATER RESOURCES DEVELOPMENT

Index to Volume 8
March, June, September and December 1992

Articles – titles

A geographic information system for water resources management in Cairo, *Mona M. El Kady*, **8**, 3, 182–185

A knowledge-based advisory system for single multipurpose reservoir management, *Slobodan P. Simonovic*, **8**, 3, 186–194

A self-correction technique for real-time simulation of regulated rivers, *Olcay I. Unver*, **8**, 4, 248–256

An alternative water supply for Chilean coastal desert villages, *Pilar Cereceda, Robert S. Schemenauer and Marcela Suit*, **8**, 1, 53–59

Comprehensive policy planning for water systems: The administration of complex policy networks, *Pieter Glasbergen*, **8**, 1, 45–52

Culture of water conservation for progress, *Carlo Lotti*, **8**, 4, 244–247

Development of India's river basins, *M. A. Chitale*, **8** 1, 30–44

Economic evaluation of groundwater development plans in Upper Egypt, *Fatma A. R. Attia*, **8**, 2, 135–144

Environmental consequences of Menik Ganga diversion, *Nalini Amarasekara*, **8**, 4, 286–291

Environmental Health Regional Information Network (CEHANET), *N. Al-Shorbaji*, **8**, 3, 156–165

Environmental impact assessment for groundwater management, *Asit K. Biswas*, **8**, 2, 113–117

Groundwater assessment in Egypt, *Kamal Hefny, M. Samir Farid and Mohamed Hussein*, **8**, 2, 126–134

Groundwater investigations in Pakistan: An emphasis on desert areas, *L. A. Khan*, **8**, 4, 257–269

Guidelines for development and management of groundwater resources in arid and semi-arid regions, **8**, 2, 145–149

Irrigation system performance and its impact on crop productivity in Sri Lanka, *Fuard Marikar, John Wilkin-Wells, Susan Smolnik and R. K. Sampath*, **8**, 4, 226–234

Modelling an overdeveloped irrigation system in South India, *B. S. Thandaveswara, K. Srinivasan, N. Amarendra Babu and S. K. Ramesh*, **8**, 1, 17–29

μRAISON: geographic information system for water sources classification management, *Soo Long Tong*, **8** 3, 173–181

Occurrence and distribution of leachate in a solid waste landfill: A field-scale study, *Reza M. Khanbilvardi, Shabbir Ahmed and Philip J. Gleason*, **8**, 4, 279–285

Organization and management of groundwater planning: Implementation and feedback, *Albert Tuinhof*, **8**, 2, 118–125

RAISON: Information systems for managing water resources models and data, *A. Swayne, E. Ongley, D. C. L. Lam and A. S. Fraser*, **8**, 3, 166–172

River channel changes in the Lower Mbokodweni river: A case study of the 1987 flood, *G. du T. de Villiers and P. M. U. Schmitz*, **8**, 4, 235–243

Saving the Aral Sea, *Arkady Levintanus*, **8**, 1, 60–64

Social conflicts and their remedies in the distribution of canal water: Case study of the Damodar Valley Irrigation Project, India, *S. Ghosh and Debabrata Lahiri*, **8**, 1, 65–72

Special issue: Information systems for water management: Editorial: information for water management, *Yong-Ja Cho*, **8**, 3, 154–155

Special issue: Planning for groundwater development in arid and semi-arid regions: Foreword, *A. Tuinhof/A. Leusink, K. Hefny/F. Attia*, **8**, 2, 74–75

Technical aspects of groundwater management, *W. H. van der Molen*, **8**, 2, 103–112

The Great Manmade River Project: A partial solution to Libya's future water supply, *Omar M. Salem*, **8**, 4, 270–278

The planning process for groundwater resources management, *Aalt Leusink*, 8, 2, 98–102

Tradeoffs in the regulation of the Equatorial Lakes, *Aris P. Georgakakos, Talal Sadaka and Thomas W. Barr*, **8**, 1, 10–16

Wastewater for crop production in the Near East: Towards safe and efficient management, *Antoine Aboukhaled*, **8**, 3, 204–215

Water for Third World development: A perspective from the South, *Asit K. Biswas*, **8**, 1, 3–9

Water resources and the future of arid lands, *Abdu A. Shata*, **8**, 2, 87–97

Water resources assessment for Egypt, *Mahmoud Abu Zeid*, **8**, 2, 76–86

Water resources development planning in the Karnali River Basin, Nepal, *Dinesh L. Shrestha and Guna N. Paudyal*, **8**, 3, 195–203

Book reviews

Climatic Changes and US Water Resources, Paul E. Waggoner (reviewed by Mahmoud Abu Zeid), **8**, 3, 217–218

Climatic Fluctuations and Water Management, by M. A. Abu-Zeid and A. K. Biswas (reviewed by B. N. Lohani), **8**, 4, 292

Putting People First: Sociological Variables in Rural Development, edited by Michael M. Cernea (reviewed by David Brokensha), **8**, 3, 216–217

Water Resources Management: In Search of an Environmental Ethic, David L. Feldman (reviewed by Bindu N. Lohani), **8**, 3, 216

Conference reports

African Regional Symposium on Techniques for Environmentally Sound Water Resources Development, Alexandria, Egypt, 30 September–2 October 1991, *A. G. Colley*, **8**, 3, 219–220

International Conference on Water and the Environment, Dublin, 26–31 January 1992 (The Dublin Statement), **8**, 3, 221–223

International Symposium on Transboundary River Basin Management and Sustainable Development, The Netherlands, 18–22 May 1992, *J. Wessel*, **8**, 4, 292–294

Stockholm Water Symposium, Stockholm, 12–15 August 1991, *Malin Falkenmark*, **8**, 3, 218

Workshop on 'Environmentally Sound Management of International Water Systems', Sophia Antipolis, France, 28–30 April 1992, *Asit K. Biswas*, **8**, 3, 220–221

Technical note

ENSICNET, *Kiran K. Bhattarai*, **8**, 3, 223–224
